In today's business environment it is important that everyone understand their Company's mission and contribute to that mission using their own core competencies and unique skills and abilities. Far too often Human Resource professionals are left out of the planning stages only to learn later that they could have been of considerable importance to their organization. "What is Strategic HR", identifies for participants how to integrate decisions about people with decisions about the results an organization is trying to obtain. This integration will build strong relationships between HR and upper management and enable HR to contribute to the organization's mission. This presentation is certified by the Society of Human Resource Management and sponsored by Bee Tree Consulting, Ltd. With a combined HR experience in excess of 50 years in both HR Management and HR Consulting, presenters Carleen Nelson-

Nesvig, SPHR and Marlo McCutcheon bring a Plethora of ideas in ways to be strategic.
